Experienced

Toolmaker Plastic Injection Molding

Full Time - Headquarter - Placeholder company (temporary) - Russell Springs, USA

Motherson DRSC with global presence spanning Germany, China, Poland, Spain, and the USA, we are dedicated to delivering premium automotive solutions that elevate the driving experience. Through cutting-edge technology and a commitment to excellence, our research and development efforts set new benchmarks in design and functionality.

We are seeking an experienced Tool Maker to join our team at our facility in Russell Springs, Kentucky. The ideal candidate will have a solid background in plastics injection molding and be highly skilled in the repair, modification, and building of molds and dies. This position is hands-on and requires strong machining and organizational skills in a tool room environment.

Что вы будете делать

- Perform die and mold repairs, including disassembly and reassembly
- Operate lathes, grinders, and other traditional tool room machines and equipment
- Set up and operate CNC machines
- Perform various machining operations to support tool repairs and modifications
- Conduct in-machine and out-of-machine tool repairs
- Utilize EDM machines (a plus)
- Weld using MIG, TIG, or laser methods (preferred)
- Maintain a clean, organized, and safe work environment

Кого мы ищем

- Program and run CNC, EDM and other machines.
- Organizational skills – you know how to keep a tool room organized(6S)
- Attention to detail
- Good verbal and written communication skills
- Team player and performing all duties un-supervised in a professional timely manner.
- Ability to solve problems in a fast-paced work environment with minimal supervision is required
- Self-motivation and resourcefulness are required

Что мы предлагаем

- Relocation Assistance Provided
- Medical, Dental, Vision, Life Insurance day 1
- 401K Retirement Plan company match
- 12 PTO Days up to 25 PTO days based on seniority
- 10 Paid Holidays
