Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Pune, India

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Strong knowledge & experience of PLC programming and troubleshooting
- Hands-on experience with Special Purpose Machines
- Experience in handling and maintenance of Leak Testing Machines, Light Testing, Vision Inspection Systems, Gluing / Dispensing Machines, Aiming Machines
- Analyse machine failure trends using MTBF / MTTR data
- Carry out root cause analysis of repetitive breakdowns and implement permanent corrective actions
- Identify and implement automation improvement projects to reduce manual intervention
- Lead Kaizen / Lean Manufacturing initiatives in assembly lines
- Coordinate with machine suppliers and OEMs for breakdown support
- Conduct safety audits and ensure zero accident culture
- Develop, modify, and troubleshoot Mitsubishi PLC programs for machine control and automation
- Diagnose electrical and control system faults using PLC logic and implement corrective actions
