Experienced

SCM Leader - Morocco Locomotive (Rolling Stock) Brown/Greenfield Plant

Full Time - Kenitra, Morocco

We are looking for an experienced and dynamic Logistic Leader / SCM Leader to join our team in Morocco. The person in this role will be responsible for managing the entire supply chain and logistics operations, optimizing processes, and coordinating operational activities to ensure smooth and efficient delivery.

- Managing and overseeing logistics and supply chain operations
- Planning, coordinating, and optimizing warehouse, transportation, and distribution processes
- Monitoring key performance indicators (KPIs) and reporting results
- Collaborating with suppliers, customers, and other company departments
- Implementing new solutions to improve logistics and SCM processes
- Leading the team and developing employee competencies

- Minimum 3-5 years of experience in a similar position within logistics or SCM
- Knowledge of supply chain management tools and systems (e.g., SAP, WMS)
- Analytical thinking and problem-solving skills
- Excellent communication and leadership skills
- Proficient in English; knowledge of French is a plus

- Attractive employment terms and benefits package
- Opportunities for professional development in an international company
- Work in a dynamic and friendly team
- Training and support for skill development
