

Experienced

Junior EngineerTool Room Sprout-IND

Chennai, India

This position replacement for Mr. Arun Kumar P - Engineer (Tool Maker)

What you'll do

1. Manufacture, assemble, and maintain tools, dies, molds, jigs, fixtures, and gauges according to engineering specifications.
2. Read and interpret engineering drawings, blueprints, and CAD models.
3. Operate conventional and CNC machine tools such as lathe, milling, grinding, drilling, and EDM machines.
4. Perform tool fitting, polishing, and finishing activities.
5. Inspect completed tools using precision measuring instruments.
6. Troubleshoot tooling issues and perform repairs to minimize downtime.
7. Support tool trials and production start-up activities.
8. Conduct preventive maintenance on tooling and equipment.
9. Work closely with design, quality, and production teams to improve tool performance.
10. Ensure compliance with safety and quality standards.

What we are looking for

1. BE/Diploma/ITI in Tool & Die Making, Mechanical Engineering, or relevant technical discipline.
2. 3-4 years of experience in tool room operations, tool making, or die maintenance.

What we offer

The team is growing at the same time our Group grows. Therefore, there are many opportunities for you to grow with us!
