Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Pune, India

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Maintain accurate inventory records of electronic components, raw materials, WIP, and finished goods.
Monitor stock levels and ensure material availability for production schedules.
Conduct cycle counts and periodic physical stock verification.
Reconcile inventory discrepancies and implement corrective actions.
Receive materials from suppliers and verify quantities against purchase orders and delivery challans.
Ensure proper identification, labeling, and storage of electronic components.
Follow FIFO/FEFO inventory practices.
Maintain ESD-safe storage conditions for sensitive electronic components.
Issue materials to production as per production plans and BOM requirements.
Track material consumption and return of excess materials.
Coordinate with production, planning, and procurement teams for material requirements.
