

Experienced

Team Lead

Noida, India

Mother'son Technology Services Limited a next-generation global technology solutions company, was born for this pioneering era. Our company was founded in 2000 with the goal of assisting companies to expedite their digital and technological transformation processes. In fact, Mother'son Technology Services uses a technology-agnostic approach to help our clients thrive in today's fast-changing and highly competitive world. The 21st century has been an era of colossal technological advances. These advancements have altered our lives so drastically that only one way forward is technology-led transformation. As a CMMI Level 5 company, we have delivered best-in-class solutions to more than 430+ customers in 44+ global locations across all continents. The combination of our technology-driven products and services with our deep domain expertise has enabled them to simplify operations, create innovative products and services, lower costs, maximize revenue, and gain a competitive advantage. Mother'son Technology Services pledges to continue to use the power of innovative technology solutions and services to transform businesses and uncover new growth opportunities for our customers. Mother'son Technology Services is the technology and industrial solution division of Mother'son Group, one of the world's leading auto components manufacturers known for its diversified portfolio of auto ancillary products and services. Both Mother'son Group and Mother'son Technology foster a culture of deep trust. Trust is sacrosanct in all our client relations as we work towards our vision of becoming a globally preferred technology solutions company.
