Modules & Polymer Products - Motherson Technology Services Limited (MTSL) - Pune, India

At Motherson, we’re committed to creating long-term jobs and advancing global careers. Featured on TIME’s World’s Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Modules and Polymer division leads automotive innovation, producing everything from plastic components to complex integrated systems. Trusted by major OEMs worldwide, we also specialise in mould design, tooling, and high-quality upholstery for passenger vehicles. Join us in shaping the future of mobility.

What you'll do

- Carry out preventive and breakdown maintenance of plastic injection moulds.
Diagnose mould-related issues such as flash, short shot, sink marks, burn marks, mismatch, and part sticking.
Perform dismantling, inspection, cleaning, polishing, repair, and assembly of mould components.
Repair and replace damaged mould parts including cores, cavities, sliders, inserts, ejector pins, guide pillars, bushes, and lifters.
Ensure moulds are maintained as per maintenance schedules and standards.
Coordinate with production and quality teams for mould-related improvements.
Maintain mould history cards and maintenance records.
Analyze recurring mould failures and implement corrective actions.
Participate in mould modifications and engineering change implementation.
Suggest improvements to enhance mould life, productivity, and product quality.
Support continuous improvement and cost reduction initiatives.

What we are looking for
