

Engineering & Technical

Experienced

Supplier Quality Assurance Engineer

Full Time - Integrated Assemblies - Motherson Sequencing and Assembly Services (MSAS) - Puebla, Mexico

At Motherson, we're committed to creating long-term jobs and advancing global careers. Featured on TIME's World's Best Companies list, we are a diversified global design, engineering, manufacturing, assembly and logistics specialist, delivering full-system solutions to customers across industries. With a focus on innovation, quality and sustainability, we strive to be a trusted industrialisation partner and an employer that nurtures a diverse, inclusive workplace.

Our Integrated Assemblies division leads in automotive innovation, specialising in premium module assembly and cockpit module integration. We collaborate with customers to deliver cutting-edge solutions supporting electrification. Join us to work with advanced technology and shape the future of automotive innovation.

What you'll do

- Achieve supplier quality objectives, including PPM, KPIs, scrap reduction, response times, assembly testing, and audit compliance
- Respond to supplier quality failures through KPM tracking, analysis, and reporting for metal and plastic components
- Build supplier relationships and implement corrective actions to prevent recurring issues
- Manage warranty claims, supplier incidents, rework activities, and QRCI initiatives
- Monitor supplier performance, incoming quality metrics, action plans, and escalations
- Control nonconforming material, coordinate supplier changes, and support special customer or supplier events
- Manage NCRs, 8D reports, quality costs, FMEA updates, control plans, inspection plans, assembly documentation, and component releases
- Apply drawing interpretation, GD&T, statistical analysis, root cause methods, and quality system requirements for issue resolution support

What we are looking for

- Bachelors Degree in Engineering or adjacent
- 3+ years of experience in a similar engineering role
- Automotive quality experience; strong 8D/QRCI problem solving
- Knowledge of SPC, MSA, statistics, and variability reduction
- Expertise in APQP, PPAP, FMEA, core tools, and QA file follow-up
- Supplier audits, scorecards, debit alerts, and transfer management
- Familiar with IATF 16949 and VDA standards (2, 5, 6.3, 6.5, RGA)
- proficient in English

What we offer

- A pleasant working atmosphere, with good career opportunities.
- Build knowledge with varied and exciting assignments.
- We show our commitment to our people via the following values:

Interest for each other: We act with empathy and care about each other and our counterparts.

Togetherness: We work together collaboratively and selflessly.

Trust: We say what we mean, keep our promises, and treat others with respect.

Respect: We respect and value people of all backgrounds.

Enthusiasm: We are curious, ambitious, passionate, humble, and life-long learners.
